

# ***NFT Mint Guide***

**Step 1:** Set up Metamask Wallet

**Step 2:** Buy/Transfer Eth

**Step 3:** Mint Your Xplorer

# Step 1 - Set up Metamask

## **Install**

Download the metamask software on your **desktop** by visiting the official website [here](#).

## **Select Browser**

(Compatible with **Google Chrome**, Firefox, Brave, or Edge website browser)  
Click on “**Add to Chrome**” and then “**Add Extension.**”

## **Secure Your Wallet**

Watch the video and note down your **recovery phrase** in a notepad.  
**DO NOT** share this with anyone else and don't lose it.

## **Note**

You can buy eth directly from Metamask BUT it would require you to complete KYC before doing so.

## Step 2 - Buy/Transfer Eth

### Download

Download CoinDCX (or Binance/WazirX) on your device.

### Create Account

Set up your account and complete **KYC** to add funds.

### Buy Eth

You will need approximately 0.07 Eth (0.05 + Gas) to get one Xplorer.

### Transfer Eth to Metamask

Go to your metamask extension, and click just above your Eth balance to copy your **wallet address**. *This address is a combination of numbers and letters starting with "0x..."*

**Open Coin DCX** (or Binance/WazirX) and go to funds, which is at the top-right corner. Then go to "portfolio" and click on **Eth**.

Click on **Withdraw** and paste your wallet address.

Add the amount you would like to transfer to your Metamask account and complete the transaction by clicking "send."

## ***Step 3 - Mint Your Xplorers***

### ***Go To Our Website***

Open <https://www.xplorers.io> on your **desktop** and click on **Mint Now**.

### ***Connect Metamask***

Choose the number of Xplorers you would like to “Mint” and proceed with the transactions on the MetaMask prompt.

### ***Welcome To The Xplorer Fam!***

Once your transaction goes through, a place-holder NFT will show up in your Metamask Wallet.
